2. Report on Digital Library

Now-a-days various sectors in the world are running behind digitalization. In fact, Education system is one such sector. Digitalization enhances the success rate; we proudly say that we are a part of Digital India. Our college is provided with a Digital library which enable students to have all books at one window. Students are super happy to grab knowledge at broad range.

As change is the only thing that doesn't change, the physical reading is slowly switching to e-reading. One of the major advantages of digital library over traditional library is students can understand the topic and clarify their doubts then and there at one go.

WORLD ENVIRONMENT DAY JUNE 5TH

Cost of Oxygen and Trees:

One oxygen cylinder costs ₹ 700 (approx. \$10), so a common human consumes the oxygen of ₹ 2100 (\$30) per day. And in the year, it's ₹ 746,500 and in the lifespan of 63 years, a person consumes the oxygen of more than 5 crores.

The common human being breathes the amount of oxygen in a day which is sufficient to fill the 3 oxygen cylinders. We get the oxygen of cars in free of costs from trees, still we cut them.
