

7.2.1 Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

Best Practice I

Title of the Practice: Cultivation and Conservation of Botanical plants and Medicinal plants in and around our collage premises

Objectives of the Practice:

- to inculcate values of **Botanical and Medicinal** plants .
- to inculcate their uses and conservation among students
-

The Context

Ayurveda is practiced and utilized by Indians as **Traditional medicine** since many centuries. Ayurveda is a great asset of our Nation Do; it's our prime duty to inculcate values of **Botanical and Medicinal** plants, their uses and conservation among students. Plants are inseparable part of human's life, we depend on them directly or indirectly for our entire life to fulfill our basic deeds like Oxygen, food Shelter and so on.,

These medicinal plants being **marvels of our mother Earth** provide major source of molecules with the medicinal properties due to presence of natural compounds. So, it's our whole and sole responsibility to conserve them for our upcoming generation

The Practice

In our college campus(VNC) , have cultivated plants for ornamentation shading and oxygen supply to the mature. Some are medicinally important plants growing in and around the institution. They are:

1. **Azardicta indica.**

Commonly called as neem tree or Bevina mara. The leaf of the same is used for treating leprosy, eye disorders, bleeding nose, intestinal worms. Stomach upset, loss of appetite, skin ulcers. Diseases of the heart and blood vessels, fever, diabetes and liver problems.

2. **Ficus bengalensis** (peepal tree)(Ashwtha mara)

Banyan bark, leaves and roots are still a part of traditional medicine various ailments ranging from gout and mental disorders to indigestion and even the common cold. The Banyan Tree need to be fertilized once a year. The fertilizer should have equal parts of nitrogen, potassium and phosphorus (go for 20:20:20)

3. **Murraya koenigii**

Family-Rutaceae-Curry leaf tree (Karibevu)

A very easily grown plant, succeeding in most soils and situations. It prefers a fertile, humus rich moisture sensitive soil. We have grown in our college campus pit size of 30x30x30 cm Is dug. Immediately after planting the pits are irrigated.

4. **Ixora chinensis**

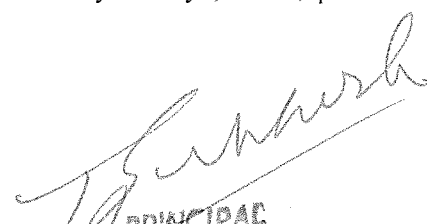

Commonly called as Chinese ixora belongs to to the family **Rubiaceae**. A Red orange coloured carved crown. The genus exora is a Sanskrit word Eshwara and shiva God. The seed name Chinensis represents origin if china.

Uses : The fusion juice leaves and the fruit of ixora coccinea is used to treat the cast of dysentery, ulcers and gonorrhoea.

5. **Peltophorum pterocarpum**

The tree belongs to papilionaceae, in Hindi it is called as Peela gulmorhar, is grown in our college campus. Chemical compositions such as alcohols', fatty acids amino acids, terpenoids, phenolics, alkaloids, steroids and etc, helpful to treat dysentery , sores, pains skin disorders and muscular paints.

6. **Mussenda philippica**

CRITERIA-7

MEDICINAL PLANTS

- 1) **Tecona stans**: Commonly called as "Yellow bells"

Medicinal Uses:

- Used in treating diabetes, yeast infections, digestive problems.
- Used as powerful diuretic, vermifuge & tonic.

- 2) **Rosa indica**: Commonly called as Gulab.

Medicinal Uses:

- Used in the treatment of diarrhea, asthma, leukoderma and inflammation of mouth.
- Creams the essential of rose are used to treat dry skin.

- 3) **Catharanthus roseus**: (**Vinca roseus**): Commonly called as pink periwinkle, Madagascar periwinkle, old maid etc.

Medicinal Uses:

- It has been used to treat diabetes, high blood pressure and have been used as disinfectants and anti- cancer.
- It is a source of drugs vincristine and vinblastine which is used to treat cancer.

- 4) **Ocimum tenuiflorum**: Commonly called as Indian basil or Tulsi.

Medicinal Uses:

- It helps to cure fever.
- It is used to treat skin problems like acne, blackheads and premature aging.
- It is used to treat heart disease & fever.

- 5) **Beheth Nelli**: Commonly called as Indian Gooseberry (*Phyllanthus emblica*)

Medicinal Uses:

- Treatment of diarrhea, jaundice and inflammation.

- 6) **Mentha pulegium**: Commonly called as Penniroyal/Pennyrile.

Medicinal Uses:

- It has been used for the treatment of cold relief, fever, cough, indigestion, liver and kidney problems, and headaches.
- It is used to treat tuberculosis.

- 7) **Tecoma carpensis**: Commonly called as Cape honeysuckle.

Medicinal uses:

- To relieve pain and sleeplessness, to bring down fever, to treat chest ailments such as bronchitis, to treat stomach pains.

8) Syzygium cumini: Commonly called as Java plum

Medicinal uses:

- It is used to treat mainly Diarrhea.
- The jamun seeds are used to treat diabetes, diarrhea.

9) Mimosa pudica: Commonly called as shy plant (Touch me not plant).

Medicinal uses:

- It is a very good anti-inflammatory agent.
- It helps to relieve joint pain and inflammation.

10) Citrus limon: Commonly called as Lemon.

Medicinal uses:

- Lemon oil was administered on sugar for suppressing coughs.
- The juice is used to treat scurvy, sore throats, fever, high blood pressure and chest pain.

11) Punica granatum: Commonly called as Pomegranate

Medicinal uses:

- It is used to treat sore throats, urinary infections, digestive disorders, skin disorders, arthritis etc.

12) Annona reticulata: Commonly called as Wild sweetsop/custard apple.

Medicinal uses:

- It is a very good anthelmintic, analgesic, anti-inflammatory, anti-pyretic.

13) Moringa oleifera: Commonly called as Drumsticks.

Medicinal uses:

- It is used to treat joint pain, arthritis, asthma, cancer, constipation, diabetes, diarrhea, seizures, stomach pain, stomach and intestinal ulcers.

14) Acalypha indica: Commonly called as Acalypha.

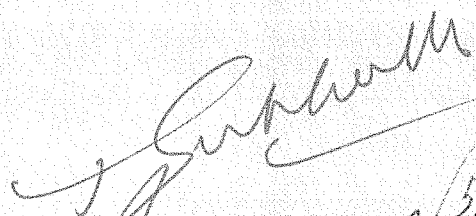

Medicinal uses:

- It is a very useful as an anthelmintic, anti-inflammation, anti-bacterial, anti-cancer, anti-diabetes etc.

15) Veldegrape: Commonly called as Veldgrape.

Medicinal uses:

- It is used in treating diabetes, obesity, high cholesterol, bone fractures, allergies, cancer, stomach upset, painful menstrual periods etc.

7/3/16
JAYANAGARA COLLEGE
HOSAPETE - 583 201

It is a plant specie that belongs to the family Rubiaceae common name is Bangkok rose, queen Siri kit. Cultivated as ornamental plant in our college campus

Scientific name – *Mussaenda erythophylla*

It is grown in in a completely fertile. Dry and organic rich medium moisture soil. Apply early fertilizer in the morning or evening

Problems Encountered and Resources Required

The problems encountered in implementing the practice are as follows:

- Concerns about loss of biological diversity and the availability of resources
- Concerns about declines in local knowledge and cultural survival
- Concerns relating to the availability and quality of healthcare services
- Concerns relating to the terms of research on medicinal plants

Best Practices II

Title: Blood donation – As Institutional social responsibility.

Blood transfusion saves lives and improves health, but many patients in need of transfusion do not have timely access to safe blood.

Objectives of the practice:

Blood transfusion is an essential component of the health care system of every country and patients who require blood transfusion service as part of the clinical management of their condition have the right to expect that sufficient and safe blood will be available to meet their needs.

Encourage the students and their families to become regular blood donors.

Find out the students blood type and register as a blood donor. Participate in local World Blood Donor Day events.

Most of the blood available to hospital blood centers came from replacement donations – blood from relatives or friends of the patient – which are considered unsafe by the World Health Organization because of the risk of infectious diseases.

The project aims to inform students about the need to ensure a supply of safe blood to the health system in order to encourage them to become the voluntary and regular blood donors of the future.

This will ensure the regular supply of the safest blood type of blood donation, which is from voluntary and non-remunerated donors

Context:

The context of blood donation is to maintain a safe and adequate blood supply to the needy.

Donating blood to help people is one of the noble things done by any human being. The requirement for the blood donation is increasing day by day. Our students voluntarily donate blood to the people who met with accidents and in need of blood. The first step will involve increasing public awareness of the importance of voluntarily blood donations. Here the doctors explain the blood donation process and to allay their anxiety and their nervousness. Repeated blood donations may help with proper blood flow. Stress and unhealthy diet can make your blood clotting disorders. It essentially makes our blood thick and slow moving. Donating blood helps to release those extra toxins from human body. Our blood donation helps someone to dealing with cancer, bleeding disorders, and chronic anemia. Storing our own blood could be beneficial to us in the case that a compatible donor wouldn't be available. So each drop of donation matters. Life is precious and so is being a life-saver.

The practice:

The Vijayanagar College has contacted the VIMS, Govt. 100 Bed Hospital, Hosapete and HDFC Bank CSR Dept. with official letter requesting to conduct the camp on particular date and proper place.

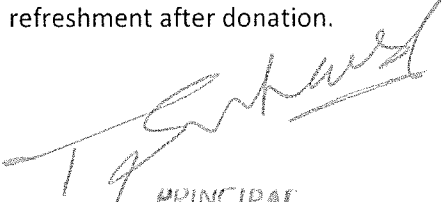

A simple official letter should be given to the organization from blood bank in charge mentioning that the blood bank team will reach the venue one hour before the scheduled time, so that the blood bank team can get time to make arrangement for blood donation. Instruction should be given to the organizer to arrange a big hall and two rooms with a facility of water, electricity and a toilet. If separate room is not available then one big hall may be converted into three separate sections using screens or curtains.

The area that is selected for voluntary blood donation camp should be well lighted, well ventilated, spacious areas. Voluntary blood donation camp should be organized in centers of public assembly, via, educational institutions, youth groups, offices, factories, etc.

Arrangement of sufficient cots, tables with chair for registration, medical checkups, and for blood donation procedures.

Clean drinking water with disposable glasses in camp area and refreshment area.

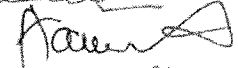

Volunteers to help in registration of donor, medical checkups and refreshment after donation.

INSTITUTIONAL VALUES AND BEST PRACTICES

A REPORT ON BLOOD GROUP TESTING AND BLOOD DONATION CAMP

Our institution has organized Blood Group Testing and Blood Donation camp is arranged with Indian Red Cross Society ,HDFC Bank ,100 Bed Hospital ,VIMS Blood Bank Bellary in association with IQAC ,NSS AND NCC @ College Quadrangle on 07.01.2022 @ from 9.30 AM onwards . The Chief Guest of the program is our Honorable Chairman of Governing body Sri . Asundi . B. Nagaraja Gouda and Principal Dr. Prabhaiah V.S. and Guest of Honor is Dr.Somasekhar, 100 Bed Hospital , Hosapete has presided over the program.

Our Principal has welcomed the Chief guest , members of Governing body, staff members and students and chief guest has addressed the gathering , and guest of honor delivered a memorable speech earmarking the importance of Blood Donation and highlighted about the Blood grouping ,Our college Dr.H.M. Chandrasekhara Shastri , Asso.Prof, Departement of History, and also Coordinator of Indian Red Cross Society,who has donated blood for more than 100 times and also the state awardee of Blood Donation has welcome the Guest of Honor, and Our Physical Director Sri.Shiva Kumar has given the vote of thanks.

In the Blood Donation Camp, More than 100 students has donated Blood,and More than 300 students have reported to the blood grouping . Many of our staff members including Principal have donated Blood and More than 500 students together with Teaching and Non-Teaching Staff have actively participated in the Program

Outcome of the Program:

1. Students have benefited about the importance of Blood Donation and Blood Grouping
2. Most of the students have benefitted about the Blood grouping
3. For this program Our College has bagged the Award of Blood Donation from KARNATAKA STATE BLOOD DONATION ORGANISATION BANGALORE AND DISTRICT TASK FORCE (FOR BLOOD SAFETY) BALLARI

Hemoglobin test be done in the blood donation camp itself and by the technician on duty before the donor is declared fit. Blood donor's hemoglobin level will be checked to ensure that he/she is not suffering from anemia and can safely donate a unit of blood.

Placing blood donation banners at the entrance, registration areas and donation areas, etc. to guide the members of the blood donation camp and donors.

A communication plan should be designed according to a good strategy like displaying posters and distributing informative leaflet at the public areas a week in advance to motivate the blood donors.

Approach local Print and electronic media to give adequate coverage and support.

Evidence of success:

- We have letter of appreciation to the organization from medical officer.
- The Students who donated the blood will get free health check-ups in identifying the pulse rate, Blood pressure, Body temperature, and Hemoglobin level.
- The donor will be informed of their blood group.
- The donor students are given a certificate of appreciation from blood banks.
- The health personnel's will give proper medical advice to the sick blood donors.
- Media has published the adequate coverage of blood donation camp.
- Any recipient can approach the college to get the donors number thus the college connects to the society!

Problems encountered and resources required:

- Most of the students are not aware of the benefits of blood donation.
- Students from the villages and poor backgrounds are found to be ignorant of their health status.
- Students are panic to needles and blood testing.
- Most of the girl students are underweight and anemic due to malnutrition and undernourishment.
- Motivating the parents of the students is a difficult task who are not educated.

Title of the Practice: Value Education**Objectives of the Practice:**

- To inculcate value.
- Promoting sense of social responsibilities.
- Building leadership qualities.
- Development of well balanced personality.

The Context:

The core objective of this institution is preparing and nurturing the young students to become a complete or whole person. To achieve this vision the mission of the institution is to impart holistic education for the empowerment of Students with great emphasis on inculcating value to nurture the growth of well balanced personality.

The Practice:

The institution organized various programmes and activities under value education programmes:

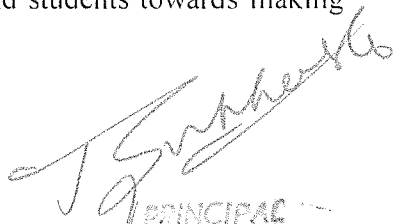

1. Value education: Topic related with ethics and social values are open for discussion. It also focuses on the issues and problems generally faced by the girl students and means and ways to tackle the problem.
2. Group counselling: Group counselling conducted for some target group.

Evidence of success:

The evidence of success is shown by increasing participation of students in the programmes and activities conducted under value education programme. The initiatives for most of the programme are taken by the students; it also helps in shaping leadership qualities in them. Many academically weak and passive students taking up a leading role is also observed. It give them a platform for discover their leadership qualities thereby building up their confidence and self-esteem.

Problems Encountered and Resources Required:

Due to subjective nature of the programme the faculty in-charge of the programmes especially in counselling area sometimes moves beyond empathy and get emotionally attached with the Student's personal issues. If timely intervention is not taken, they suffer from burned out syndrome which is too taxing on the faculty members. Resource requires is sincerity, cooperation and enthusiasm on the path of teachers, management and students towards making the programme successful.

SCIENCE FESTIVAL

PIC :17

We are teaching 'SCIENCE' for the last 06 decades at UG level and 01 decade at PG level .
Our college understands the need of great scientists at the Global level and prepares them at
UG/PG level at own college. to give a further pillar to 'SCIENCE' We conducted the 'SCIENCE
FEST " on 28/02/2019 we invited great Scintista and they gave inspirational lectures and
directed us for the future possibilities.

Sub: Competitions for the celebration of 100 years Einstein's Nobel Prize for Photoelectric effect

Our Department willing to conduct the following Competitions in the College for the students to celebration of 100 years Einstein's noble Prize for Photoelectric effect

1. Science lecture Contest on Photoelectric effect/Einstein's explanation of photoelectric effect
2. Essay writing Contest on Photoelectric effect / Einstein's explanation of photoelectric effect
3. Cartoon writing contest on Einstein/ Photoelectric effect / Einstein's explanation of photoelectric effect

We are planning to conduct these contests on 10th of November 2021 in association with IQAC and Science Association of our College. we are requesting you to give permission for the same

Thanking you

Yours Faithfully

**Report on Essay Competition conducted by Department of Physics and Electronics
in association with IQAC and Science Association**

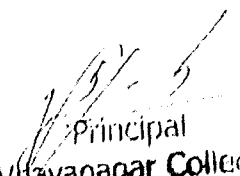

An Essay competition on the topic 'Mobile Phones that changed our lives' was announced for the students on 25th November 2021. The students asked to enroll their names with Prof. Karibasaiah, HOD of Electronics. It was published in students' whatsapp group and on notice board. It was open to all disciples of students. The essay competition was scheduled on 3rd December 2021.

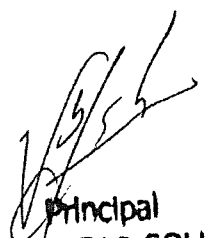

Total 121 students enrolled their names but on 3rd December only 90 students were wrote essay for competition. The competition declared open by the President of College governing body Sri. Asundi B. Nagarajagouda, presided by In charge Principal Dr.M. Prabhugouda. All the staff members of UG and PG of Physics, Prof. Karibasaiah were present. PG staff Sridhar, Swetha, Bhavani and Deepa conducted the essay competition and evaluated the Papers.

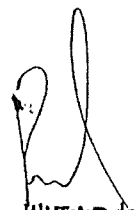

The students wrote the necessity of mobile phones and advantages and disadvantages of the use of mobile phones. They appreciated their use in lockdown period. Overall it was a grand success and students were happy to participate in such activites.

Three prizes were announced on 23rd December 2021. The winners list submitted to the Science association coordinator. The prizes will be distributed on National Science Day to be celebrated in the College on 28th February 20022.

DEPARTMENT OF CHEMISTRY

Date: 29th November 2021

REPORT ON MENTOR MENTEES PROGRAMME

Our college has given a special value on the students with a note on their individual ability.

Therefore, certain number of students is shared between the faculties of each department.

Students interests, goals, their weaknesses and strengths are analyzed and dealt with personal care.

Each faculty will have certain students, under them as mentor and each parameters expressed by students, like hobbies and future goals are guided and monitored by the faculty effectively.

Many students have expressed their inability to grasp the concepts in general classes, so special classes were conducted every week for training the students with respect to their academic results.

Date: 12th November 2021

Outcome of centenary celebration of Einstein's Nobel Prize for Photoelectric effect and World Science day in our College on 10th November 2021

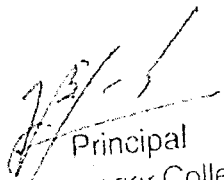

In Association with IQAC and Science Association, the Department of Physics organized following Competitions for the centenary celebration of Einstein's Nobel Prize for Photoelectric effect and World Science day in our College on 10th November 2021.

The permission from Principal sought from our letter dated 30th October and on the same day announcement of Competitions published on notice board, on student whatsapp groups and in class rooms. For Science Lecture contest there were 14 students enrolled their names but nine students participated on 10th November. For Essay writing contest there were 26 students enrolled their names but 18 students participated on 10th November. For Cartoon drawing contest there were 16 students enrolled their names but 12 students participated on 10th November.

For science lecture contest our staff Ajit Narayana rao, Dr, Arvinda. T and Sangamesh. J were judges. For Essay contest Meghana, Swetha and Bhavani took the responsibility of judging the winners. For cartoon drawing contest Sridhar and Basavaraj were the judges. The Inauguration function was organized at 11:30 AM on 10th November at PG room 3.

All Physics staff both UG and PG along with participants were present. Dr. M. Prabhugouda highlighted the importance of world Science day and Einsteins explanation of photoelectric effect. In charge Principal Dr. Mruthanjaya Rumale asked the students to participate in such events. The judges submitted their reports on that evening and results were declared on 11th November.

The students actively participated in the group. The prizes of these competitions are going to be distributed on 16th of November 2021,

Department of Physics

In Association with IQAC and Science Association, the Department of Physics organizing following Competitions for the celebration of 100 years Einstein's Nobel Prize for Photoelectric effect in our College

1. **Science Lecture Contest** on Photoelectric effect/Einstein's explanation of photoelectric effect

30 minutes lecture they can use black board/PPT/ Overhead projector

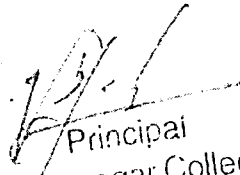

2. **Essay writing Contest** on Photoelectric effect / Einstein's explanation of photoelectric effect

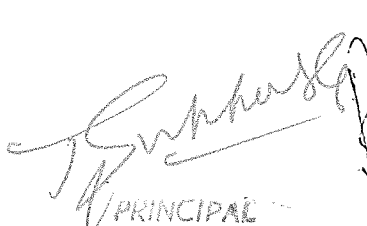

Duration 30 minutes

3. **Cartoon writing contest** on Einstein/ Photoelectric effect / Einstein's explanation of photoelectric effect

Duration 60 minutes

- All above contests will be held in Room No. 3 , 4 and PG physics lab in 2nd floor of the college after 11.30 AM on 10th November 2021.
- These Competitions open for UG/Pg students of our College
- Interested students give their name on or before 7th November in the Physics Department.
