**VIJAYANAGAR COLLEGE, HOSAPETE**  
Department of PG Studies and Research in Chemistry

**Visited Munirabad (Lake view) For the purpose of demonstration of collection of the water samples**

We the P.G. chemistry staff along with 25 students visited Munirabad (Lake view) on 07/06/2024. so that students can take part interest in research field and this visit is to demonstrate the collection of the water samples in different locations allotted to the each student .

This study trip was planned with the intention of:

1. Practical implementation of concepts is most effective tool for learning.
2. Develops social environmental importance, maintenance of ground water and terrestrial water .
3. Gives interactive learning with a bit entertainment.

This study trip was very helpful in gaining knowledge about collection of various water samples at different locations. Even to teach students with a bit of practical knowledge would enhance teaching skill. Personally it helped us to develop through all the aspects and even it could be beneficial if we join research field.

We would like to thank our principal Dr.Prabhu Gouda and Chairman Mr.Mallikarjuna Metri for permitting us and making this educational visit a grand success.
